Aspiring Software Developer with a basic foundation in Java, SQL, HTML, CSS, JavaScript, React, Node.js, and MongoDB. Hands-on experience developing android application and web applications through academic projects and internships. Familiar with application development, debugging, database management, responsive web design, and Git/GitHub. Seeking to apply technical roles and contribute to real world projects.

EDUCATION

EGS Pillay Engineering College

B.Tech Information Technology
CGPA 8.5
2022-2026

Municipal Girls Hr.Sec School

HSC -72%
2020 - 2022

Municipal Girls Hr.Sec School

SSLC -66%
2019 - 2020

PROJECTS

Campus Bus Tracker | Android App | Jan 2026

- Developed a real-time college bus tracking application enabling students to view live bus locations and search available buses.
- Implemented Firebase Authentication, Realtime Database, Google Maps integration, and FCM-based arrival/delay notifications.
- Built student and admin modules for secure access, bus management, location updates, and transport announcements.
- Tech Stack:Java, Android Studio, XML, Firebase, Google Maps API

The Coffee & Me | Full-Stack Web App | Jul 2025

- Developed a full-stack coffee shop web application with separate admin and customer functionality.
- Implemented product management and online order placement features.
- Developed RESTful backend APIs using Node.js and Express.js with MongoDB for data management.
- Designed responsive web interfaces using HTML, CSS, and JavaScript.
- Tech Stack: Node.js, MongoDB, HTML5, CSS3, JavaScript.

Train Food Delivery Application | Android App | Jan 2025

- Implemented user authentication, food menu management, order placement, and order tracking functionalities.
- Designed responsive and user-friendly Android UI for seamless navigation and food ordering.
- Integrated a real-time database to manage user details, food items, and order information.
- Implemented an order management workflow to support order creation, status updates, and delivery tracking.
- **Tech stack**: Java, Android Studio, Google Maps API

TECHNICAL SKILLS

- Programming Languages: Java and C
- Core Java: OOP, Exception Handling, Basic DSA
- Web Technologies: HTML5, CSS3, JavaScript, React.js, Angular, Responsive Web Design
- Backend: Node.js
- Databases: SQL, MySQL, MongoDB
- Tools & Technologies: Git, GitHub, VS Code, Android Studio
- Design: Figma, Canva
- Soft Skills: Problem-Solving, Adaptability, Teamwork, Communication

INTERNSHIP EXPERIENCE

Google - Android Development Intern| Virtual |Jul - Sep 2024

- Completed a 10-week virtual internship focused on Java fundamentals and Android application development.
- Applied Java programming concepts to develop a working mobile application.
- Practiced application development, debugging, and problem-solving in a virtual team environment.

AICTE - Web Full Stack Developer Intern | Virtual |Apr - Jun 2025

- Completed a 10-week virtual internship focused on web development and frontend fundamentals.
- Developed a working web application using HTML, CSS, and JavaScript.
- Applied responsive web design and frontend development concepts.

CERTIFICATIONS

- **Lets Upgrade -** Java bootcamp and basic of Java
- **Infosys Springboard** - DBMS part-1,HTML5 ,CSS3 ,Java Script , Networking and Web Technology and Prompt Engineering
- **Skill Rack** - Python3.x and Java in Skill Rack
